

**International Summit  
on Disability and Development:  
Achieving Disability Inclusive UN SDGs**

**Introduction**

*2018 International Summit on Disability and Development, with the theme of “Disability and Development: Achieving the UN SDGs”, which will be held in Beijing, China, 11 October 2018.*

The main topics of this summit cover three areas: 1. Achieving the United Nations 2030 Agenda for Sustainable Development. The UN 2030 Agenda for Sustainable Development is a commitment by the international community and national governments to promote shared prosperity and well-being over the course of 15 years, by achieving 17 Sustainable Development Goals (SDGs) and 169 associated targets “for all.” It is important to adopt approach of disability inclusive SDGs to implement development agenda. Disability is the global public health, human rights and development issues. The development of inclusive disability is a development strategy for achieving SDGs and for the implementation of the UN Convention on the Rights of Persons with Disabilities. 2. The value and regional development status of rehabilitation. Rehabilitation is a health-related services targeting to achieving SDG3: universal health coverage. Disability are the issues relevant to global public health, human rights, and development issue. Experts from international organization and different regions will share development and experiences at globe and regional level; 3. ICF theory, methods and implementation. The International Classification of Functioning, Disability and Health (ICF), issued by the WHO, is an international standard in the field of functioning and disability and is widely used in health, education, statistics, social services and

policy development. Top ICF experts at globe and national level will present their researches on ICF theory, methods and the application in relevant fields.

**International Summit on Disability and Development: Achieving the UN SDGs**, is an important event of 2018 Care & Rehabilitation Expo China (See attached program). The representatives from UNESCO, RI, WHO-FIC CC in China, the distinguish guests and experts from U.S.A, Ethiopia, Sri Lanka, Hong Kong, Macau, and others will be invited to attend the summit and give their keynote speeches in the fields of disability and rehabilitation.

**2、 Time:**

8: 30-17: 00, 11<sup>th</sup> Oct, 2018

**Venue:**

Meeting Room E232A

China National Convention Center

**Organizers:**

WHO-FIC Collaborating Center in China

China Academy of ICF/Weifang Medical University

China Academy of Audiological, Speech and Language, East China Normal University

China Key Laboratory of Classification, Evaluation and Rehabilitation (Sport) of Intellectual and Development Disability, Zhengzhou University
